

### STERILIZERS

### Autoclaves

Vertical steam sterilizers:

Single wall • **DLVS** Double wall • **DLVD**  
Monobloc • **DLV CAB**

Configurations ranging from the basic steam sterilization to the combined air/steam mixture suitable for deformable containers or High Pathogen media

Horizontal steam sterilizers • **DLOV & DLOM**

Configurations ranging from the basic steam sterilization to the combined air/steam mixture suitable for deformable containers or High Pathogen media

Horizontal superheated water sterilizers • **DLOS**  
Horizontal air/steam mixture sterilizers • **DLOAV**

To perform sterilization of large volume infusion/parenteral solutions (LVP) in non-deformable or in deformable containers

Horizontal ETO sterilizers:

Working under pressure • **DLOG**  
Working under vacuum • **DLOG/V**

Dry heat sterilizers • **DLST**  
Compliant with ISO Class 5 • **DLST/L**

### Ovens

# DRYERS

Hot air static dryers • **DLDR**  
 For use in potentially explosive atmosphere • **DLDR-Ex**

Static vacuum dryers • **DLDR/V**  
 For use in potentially explosive atmosphere • **DLDR/V-Ex**

# WASHING UNITS

Washing, disinfection & drying units • **DLWD**

Washing & steam sterilization autoclaves • **DLOV/W**

# STEAM GENERATORS

Clean, pure & ultrapure pyrogen free steam generators • **DLSG**  
 Steam heated & electrically heated

# OTHERS

Stainless steel tanks, vessels & reactors • **DLT**

Stainless steel accessories for handling & processing

more than sixty years of experience in the pharmaceutical field
